# Facility Management

Facility Management (FM) is the art and science of managing people, places, and processes within a workplace or building facility, to create the optimal environment for productivity, business efficiency, and customer success.

## Facility Management – The Right Choice

- Do you aspire to be a part of one of the fastest-growing sectors, which every industry depends on?
- Are you interested in gaining international experience and discovering how world-class facilities are built and managed?
- As a graduate or under-graduate, or a professional, are you looking to advance in your career?
- Would you like to interact directly with industry experts and obtain extensive exposure in a lucrative industry?

YES NO

If your answers are 'Yes', then Facility Management  
*is a great career choice for you!*

## Post Graduate Diploma in Facility Management (PGDFM)

Designed by industry experts, in partnership with leaders in education, this program empowers professionals with the skills and training to grow as industry leaders across industry segments.

- The program includes 3 Trimesters, comprising courses in hard / soft services and sustainability.
- All subjects will comprise of a mix of classroom learning, practicals, case studies and seminars.
- A month-long internship with leading organizations in India to gain hands-on experience / on-the-job training.
- Overseas exposure:
  - A 3-week training at **SFB Schweizerischer Fachverband Betriebsunterhalt** – a leading training institute in Zurich, Switzerland
  - An industry visit to Filmop in Italy

## Assured Placement Assistance

AWE partners closely with FM companies, large corporations and leaders in the real estate sector. Our students will be assured placement assistance in finding suitable jobs in Facility Management.

## Founding Partners - Academy for Workplace Excellence (AWE)

AWE is a collaborative partnership of three industry stalwarts from across the globe:

**Cleanfix AG, Switzerland** is the pioneer and innovator in robotic cleaning machines and a market leader with more than four decades in manufacture of Swiss quality cleaning machines and cleaning accessories. Their products are used in over 85 countries.

**Schevaran Laboratories, India** is the pioneer in modern cleaning formulations in the Indian cleaning, hygiene and sanitation sector for over three decades. Schevaran has a portfolio of over 150 environmentally safe formulations created by first-of-its-kind R&D set up in the country. It also has a technical collaboration with Rochester Midland Corporation, USA.

**Filmop International SRL, Italy** has been a dominant player in the manual cleaning equipment and accessories industry for over 40 years. A company with a clear focus on sustainability and environmental responsibility, Filmop products are available in more than 80 countries worldwide.

## Campus, Academics, and Degree awarded by Ramaiah University of Applied Sciences (RUAS), Bengaluru

RUAS is a part of the Ramaiah Group of Educational Institutes with six decades of experience in quality education and offers undergraduate, postgraduate and doctoral programs in science and engineering. The University aims to blend academic expertise with the latest technology and top-of-the-range facilities to deliver wholesome learning experience to students with a clear focus to meet the needs of industry and business.

# FM Industry Speaks

We have industry giants like GMR, international FM companies like Atalian Global Services and JLL and suppliers like Schevaran leading the way. Having these organizations invested from the start means the institute, curriculum, trainers and classrooms will be industry focused. This leads to better outcomes for both the students and the companies involved as there is alignment all the way through.

**Sam Freeman**  
Managing Director,  
Atalian Global Services

An academy that will probably change the society in a big way... will be of great value to all three levels of FM: blue-collar workers, mid-level employees and top managers.

**Ralph Sunil**  
FM Head,  
GMR Group

We tell people how to do things, but we don't tell them why. If we are able to teach that to the person on the ground, he will be enthused and give his best.

**Ashish Nanda**  
Regional Business Director-South,  
Jones Lang Lasalle Property Consultants (India)

India is one of the world's fastest-growing economies, with the vision of INR 5 trillion by 2025.

Currently valued at  
**INR 50,000** crore  
the FM industry  
is growing by a tremendous  
**20-25%** annually

Facility Management contributes  
**3.2% of GDP** and  
constitutes **10%** of the Indian market

As part of this growth story, businesses are growing rapidly and expanding their facilities.
